Chip Buss called the meeting to order 12:48 pm

Old Business

Bill Fry – Treasurers Report – We are solvent

Field Report – A new bridge was installed. Material was donated. The bridge is now 3' wide and is easier to cross and is sturdier. We provided the screws and cross boards. We voted to reimburse for material used. Approved.

The taxiway needs to be renewed there are holes in the covering. Chip B is investigating putting indoor/outdoor carpeting. To replace it with what is on the runway would cost $1000. We voted to purchase if the cost was $300 or less.

Chip B. – Tom Boy Project – Chip is receiving the first order of 12 kits today. Chip showed what he has built so far. The tail and fuesalage.

Mike S – Lending Library – The mystery of what happened to it was solved. Mike was taking care of it. It was in his house when the Tubbs fire burnt down his house.

Mike Clancy – 1/2A Texaco Postal – The Flier is in the works.

Gerry B. – SAM model only flying – Asked why there were two models flying that were not SAM models. He was informed there are some exceptions. Those flyers over 90 can fly what they want.

New Business

Chip Buss – Fun Fly – We will have a Fun Fly sometime in September or October.

Meeting adjourned at 1:27
